

3.1 OVERVIEW

Overview

For over forty years, builders looking for a solid, versatile and user-friendly ICF, have chosen Greenblock for their construction projects. Our reputation as “*the toughest block in the industry*” is well-earned. With our 12-inch tall block, web ties on six-inch centers, Lego-type connection system and flat wall design, Greenblock walls go up fast, plumb, level and square. Our blocks were designed to perform better on the job site, providing trouble-free, profitable and consistent installations every time. Our technical support team is second to none with years of onsite experience to help guide you with practical, real world advice. Greenblock products are produced and distributed throughout North America by a network of manufacturers who adhere to strict, third-party certified quality control procedures. So no matter where your construction project is, you’ll receive consistent, high performance ICF wall systems, delivered to your job site on time.
